

## Picassa Slideshow – Create & Post to Blog

Your Blogger account is connected to Picassa Web Albums. Once photos are uploaded to Picassa Web, you can easily create a slideshow to publish on your blog.

### Upload picture to Picassa

### Web:

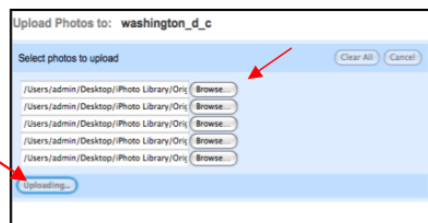

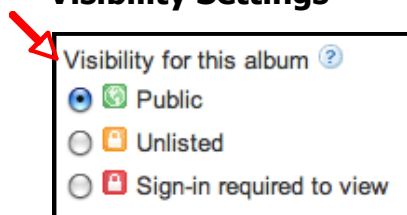

1. Open Picassa on your computer.
2. From the top, right-side of the screen, choose **import**.
3. Click on **Sign in to Picassa Web** on the top left-side of the screen.
4. Type in your Blogger username and password in the box that appears, then select **Web Albums**.
5. In Picassa Web, choose **Upload**.

6. From the screen that appears, choose **Create a New Album**

4. Name the album and choose the **Visibility Settings**
5. **Browse** to upload your photos.

6. When the upload is complete, name your album. You are now done working in Picassa, please return to your blog at blogger.com.

## Add a Slideshow to Blog:

1. When logged in to your blog, choose **Layout > Add a a Gadget**, then choose **Slideshow**

2. In the **Configure Slideshow box**, make sure the source says **"Picasa Web Albums"**

3. Type in your username.

4. Chose your album from the list that appears in the drop-down menu.

5. Choose SAVE

6. Your slideshow will appear in the sidebar of your blog. You can rearrange displayed gadgets within the sidebar by dragging them.

Title	Slideshow
Source	Picasa Web Albums
Option	<input type="radio"/> Keyword <input checked="" type="radio"/> Album
Username	soxnevad
Album	947 Wordled
Speed	947 Wordled
Options	Cool Tools for 21st Century Learning Juliette Gordon Lowe Troop 947 News washington_d_c

7. **Added bonus:** When you add photos to an album used for a slideshow on your blog, they automatically appear in the slideshow that is displayed. Sometimes, there is a delay, but they will eventually show up.

### Troubleshooting Tips:

- Make sure you are using Firefox
- Sometimes there is a delay. If a newly created album does not appear in your list, log off and return later. Most likely it will appear.
